CUSTOM ARCHES & Architectural Accents

WWW.GARDENSTATELUMBER.COM
Garden State Lumber & Hinchman Architectural Millwork have come together to bring you our newest offering of custom millwork products. With over 100 years of combined millwork experience we have gained the knowledge and expertise to provide the highest quality craftsmanship available in the industry. Whether trimming your basic arched opening or tackling the most complex of architectural styles, we can accommodate the most elaborate fabrications your imagination can create.

The following pages depict some of the more common applications. Please call our inside sales staff for pricing on any of the products shown as well as any custom creation your millwork plans may call for.

---

**OVALS**

Shown: ES1 in PVC

Measurements Required:
- Measurement - Unit Width Inside Jamb to Jamb
- Measurement - Unit Height Inside Jamb to Jamb

* All our milled PVC Arches will have a factory applied bonding primer to obtain a smooth finished product.

Oval units require a template of the jamb supplied on Red Rosin paper, Tyvek, or any flat surface durable paper (cardboard templates tend to lose the measurement accuracy required once folded). A and B measurements must be supplied with template to ensure accuracy of finished product.

---

**TEMPLATE REQUIRED**

Elliptical units require a template of the jamb supplied on Red Rosin paper, Tyvek, or any flat surface durable paper (cardboard templates tend to lose the measurement accuracy required once folded). A measurement must be supplied with template to ensure accuracy of finished product.
STEP 1
